The cabinet boxes are finished with UV lacquer, which is durable, environmentally-friendly and free from formaldehyde and hazardous substances. UV lacquer hardens when exposed to ultraviolet light. This makes the lacquer completely harmless and gives an attractive and robust finish that can tolerate even the roughest treatment.

SOLID WOOD

- 1 Back of Cabinet**
 1/4" finished inside plywood with 1/2" x 2-1/2" framing. The plywood back is set into the side panels, which has dado cut channels. It is secured with screws and metal "L" brackets to the side panels.
- 2 3/4" Birch Plywood Construction**
 Side, bottom, and top (for wall cabinets). Edge banding for exposed sides.
- 3 Extra Support**
 3/4" Thick bridge to add strength to the cabinet.
- 4 Solid Wood Doors**
 3/4" true 5 piece construction. Reversed raised solid wood panel for all shaker doors.
- 5 Drawer Construction**
 Clear finished 5/8" solidwood, with dove tail connected drawer sides. Drawer bottoms are 1/4" plywood, which is set into dado cut channels on the 4 drawer sides.
- 6 Drawer Slides**
 Undermounted drawer slides, except on Prestige, which is side mounted. Soft closing drawers are on all models except Prestige and Sahara.
- 7 Adjustable Shelf**
 15" deep x 3/4" plywood, with PVC edge banding front and back.
- 8 Hinges**
 6 way adjustable 110 degree soft closing hinges, except on special cabinets, such as Lazy Susans, and diagonal corners. Soft closing is not available on Prestige and Sahara style.
- 9 Cabinet Joints**
 Dowel, Glued and clamped for all Wood Trend models, except Prestige, Lexington and Toscana, which has dowels and Cam-locks.
- 10 Toe Kick**
 3/4" with side edge banding.
