ACRYLIC HIGH GLOSS FINISHES

CABINET CONSTRUCTION

1 Backing of the Cabinet:

Base cabinet 11/16" (approximately 3/4") plywood.
Wall cabinet: 1/4" plywood with 3/4" hanging rail.

2 Side & Top and Bottom Panel:

11/16" (approximately 3/4") plywood side, bottom and top for wall cabinets.

11/16" (Approximately 3/4") plywood side, bottom for base cabinet.

Color: white inside and out for standard, side panel exterior matching color can be upgraded.

3 11/16" Bridge:

The bridge is for added stability, and strength, which is connected to the left and right side panels. It is fastened with dowels and camlocks.

4 Cabinet Door and Drawer Front:

Slab door style:

A. Textured matte finish style: Thermal fused laminated surface over 3/4" furniture core board.

B. Acrylic high gloss finish style: styrene colored layer, which is permanently fused with a clear ultra high gloss acrylic on 3/4" MDF core board.

5 The back of the door has the same color and graining style as the cabinet fronts.

CABINET CONSTRUCTION CONTINUED

- 6 Drawer Construction:**
5/8" thick solid wood drawer sides, plywood bottom 3/8" thickness. Drawers are soft closing and dovetail joint construction.
- 7 Drawer Runner:**
Undermount soft close full extension.
- 8 Adjustable Shelves:**
1 1/16" (approximately 3/4") plywood shelf with thermal fused Lamiated Surface, edge banding front. 18" depth for base cabinet, and 10" depth for wall cabinet.
- 9 Interior Back Bottom:**
Corner dust guards on door base cabinets and wall cabinets.
- 10 Toe Kick.**
