The obligation of FERMAWOOD CABINETRY, under this warranty shall be only limited to the repair or exchange of any part or parts that the products deems proven defective under normal use and service within the warranty period. If a defect does occur within the terms and conditions of this warranty such defective part will be repaired or replaced by FERMAWOOD CABINETRY at its sole discretion. FERMAWOOD CABINETRY will not provide or pay for the cost of removal of defective product, transportation of defective, repaired or replaced product or installation of repaired or replaced product. FERMAWOOD CABINETRY will not be responsible for any shipping damages to the defective, replaced or repaired product. The product line and specifications of Signature Tradition Cabinetry may periodically be changed or discontinued. If defective item has been discontinued or is not available at the time, FERMAWOOD CABINETRY reserves the right to replace the item with the most similar item available in its inventory at that time. Some replacement parts are subject to availability, and they may differ from those originally supplied. FERMAWOOD CABINETRY can NOT guarantee that the finish of any replacement will exactly match the finish and appearance of the defective item due to the natural aging process of the wood and finishes of the cabinets. Accordingly, FERMAWOOD CABINETRY will NOT be held responsible for replacing products that may not exactly match installed products

The products of Signature Tradition Cabinetry are constructed from several pieces of solid wood and wood veneers on plywood. Differences in grain pattern and color should be expected. Wood characteristics naturally occurring such as variations in color, grain, mineral streaks and knots, are not considered defects. Color variations and color softening in cabinets are a natural occurrence due to wood species, age, character of cabinets, and exposure to UV light and sunlight. For these reasons, new and/or replacement

cabinets may not match display samples and/or existing cabinets. Therefore, such variations and changes are NOT considered defects.

This warranty applies only to defects and does not apply to the yellowing and aging of any wood product. The products of Signature Tradition Cabinetry are wood products. Extreme conditions will cause any wood product to respond adversely (high/low humidity, temperature, etc.) and this warranty does not apply to cabinetry exposed to extreme conditions. Mitered doors joint in particular are more likely to react to conditions of its environment. Gaps that may develop in door joints due to conditions of its environment are not subject to replacement under this warranty. Painted finishes reacting differently than stained finish with normal wood movement and climatic conditions, may result in breaks in finish, recesses, and joint and panel lines. These features are considered normal occurrence and not covered under this warranty.

Wood by nature will undergo expansion and contraction movements year after year as it compensates and adjusts to ever changing atmospheric humidity and temperature conditions. It is common for center panels on doors to shrink, expand or move during these transitions. Typically, the panel will return to its normal position within a year once it has adjusted to seasonal changes. It is for these same reasons that it is common for doors to warp during these periods. Therefore, doors that are warped in either direction not exceeding one-quarter inch (1/4") do not exceed normal material expectation and they are not covered under the terms of this warranty.
